TS-DOUBLE

Description TS-DOUBLE is the new manual heat press from Siser. Thanks to its innovative design you can decorate any textile in an easy and professional way. The swinging arm and the wide working space allow you to work fast and safely. The double plates permit high productivity in less time. The press is equipped with a digital display which indicates the temperature of the heating plate and an acoustic alarm which advises when application is ready.

Optional Plates Plates for caps
Plates for shoes (Options H+Achlle)
Logo platens 15x15 cm
30x15 cm
38x10 cm

Technical Data	Power	2000 Watt
	Voltage	220 Volt
	Max Temperature	220° C
	Max Pressure	300 gr/cm2
	Plates dimensions	38cm x 50cm
	Weight	57 kg

The TS-DOUBLE machine, as it is equipped with electrical parts operating at a voltage between 50 V and 1000 V, is subject to the Low Voltage Directive 2014/35/UE (formerly 2006/95/CE) and the Electromagnetic Compatibility Directive 2004/108/CEE.

Since there are no motor-driven moving parts, as the movement of closure and opening of the plates is controlled by hand, the TS-DOUBLE does not come within the field of application of the Machinery Directive 2006/42/CE. Nevertheless, the design and construction of the TS-DOUBLE has been made in compliance with the essential safety requisites foreseen by Directive 2006/42/CE.
